Team expectations:

Varsity:

Very competitive, playing time is determined by effort, ability, attitude. Just because you make the team does not mean you get playing time.

JV:

Competitive but developmental. Playing time is more equal but players are being groomed for the varsity level and are expected to be at every practice and to compete for positions and playing time.

Freshman:

Depending on how many players come out for the team will determine whether cuts are made. Playing time is as equal as possible. Players are taught all volleyball skills along with the same offense and defense run at the JV and Varsity levels.
